

Cheatsheet

Instructions: For each resource and term, please include 1) name, 2) description, and 3) link. Include as many as you'd like. [Use this example cheatsheet from last year for reference.](#)

Due: April 13, 2018

Resources: references made in your talk/workshop or good resources to look up as a follow up to your talk.

- Workshop Website:
 - This is the workshop website where attendees can get all the needed info
 - <http://wpworkshop.online>
- Slides:
 - This is where you can find all the slides from our presentation.
 - <https://slides.com/eboniebutler/deck/>
- Demo Child Theme Site:
 - This is the child theme we are creating
 - <https://codeland.ebonie.me>
- Local By Flywheel:
 - Local WordPress hosting platform
 - <https://local.getflywheel.com/>
- WordPress:
 - Where to download WordPress, find themes, plugins and support
 - <https://wordpress.org/>
- WordPress Documentation (Codex):
 - WordPress online manual
 - <https://codex.wordpress.org/>
- Chrome Developer Tools:
 - Built-in browser debugging tools.
 - <https://developer.chrome.com/devtools>
- CSS Selectors
 - The 30 CSS Selectors You Must Memorize
 - <https://code.tutsplus.com/tutorials/the-30-css-selectors-you-must-memorize--net-16048>

Terms: technical or industry-specific terms that might come up in your talk/workshop and might be helpful for attendees to easily reference.

- Specificity
 - How browsers decide which CSS property value is the most specific to an element and which one will be applied. The more specific rule wins.
 - <http://www.htmldog.com/guides/css/intermediate/specificity/>
- Theme
 - A WordPress Theme is a collection of files that work together to produce a graphical interface with an underlying unifying design.

- <https://codex.wordpress.org/Themes>
- Plugin
 - Plugins are ways to extend and add to the functionality that already exists in WordPress.
 - https://codex.wordpress.org/Writing_a_Plugin
- Child Theme
 - A child theme is a theme that inherits the functionality and styling of another theme, called the parent theme. Child themes are the recommended way of modifying an existing theme.
 - https://codex.wordpress.org/Child_Themes
